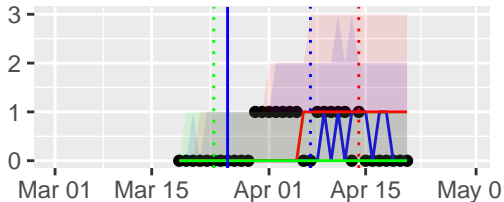

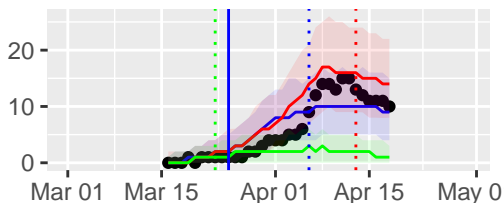

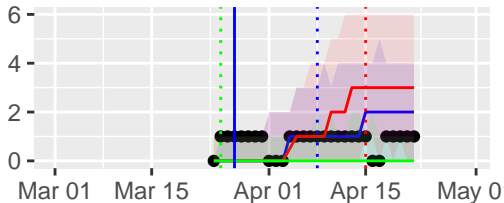

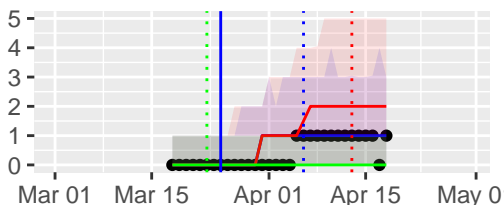

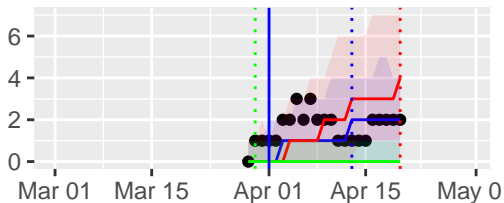

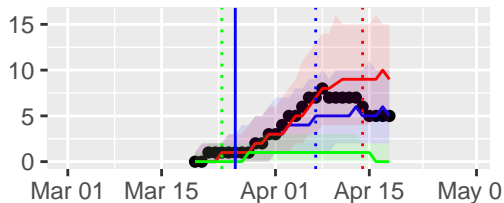

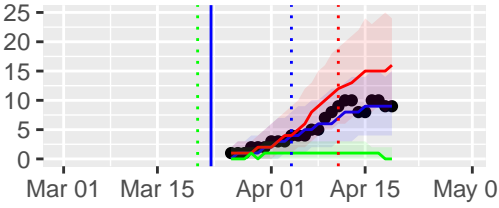

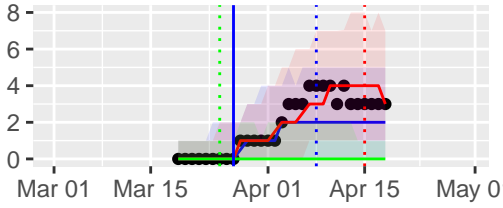

Figure 1 is a line graph showing the number of cases per day for COVID-19 in the Netherlands from March 1 to May 1, 2020. The y-axis represents the number of cases (0 to 8), and the x-axis represents time. The graph includes a green line for observed cases, a red line for the model fit, and a shaded area for the model uncertainty. Vertical dashed lines indicate the start and end of the data collection period (March 15 to April 15).
